- Submission of blank forms based on the matrix presented in [the guidelines for a QPE for policy makers](#) (and already available in English, French and Portuguese) to the experts in order to work together on the identification of strengths, weaknesses, opportunities, threats, in terms of physical education in the region.
- Development of a common list of the main strengths, weaknesses, opportunities and threats in the field of physical education and draft summary of the questionnaires completed by the experts of the groups (3 strengths, 3 weaknesses, 3 opportunities and 3 main threats by groups should be presented with concrete examples.)

12:30 pm-2:00 pm: Lunch

VII. 2:00 pm-3:30 pm: Plenary

- Presentation by a representative of each sub-group the list of strengths, weaknesses, opportunities and threats in the field of physical education and preliminary results of the questionnaires completed by the experts of the groups.

- Progressively, a person writes in a table –on screen or physical- having 4 columns (strengths, weaknesses, opportunities and threats) the elements reported by each sub-group. By the end of this exercise ideally there will be a maximum of 12 strengths, 12 weaknesses, 12 opportunities and 12 threats visible to all participants.

3:30pm-3:45pm: *Break*

VIII. 3:45pm-5:45pm: Continuation of work in 4 sub-groups of experts, each sub-group having a different objective:

- **Sub-group 1:** Take up the twelve identified **strengths**, study how these can be examples of good practice and how they can be applied in the region and thus counteract the weaknesses and threats shown in the table. Sub-group 1 will therefore have to prepare a list with recommendations which will be further developed after the conference.
- **Sub-Group 2:** Take up the twelve **opportunities** shown in the table, study how they can be fully exploited and applied elsewhere in the region in order to counteract the weaknesses and threats indicated in the table. Sub-group 2 should therefore prepare a list with recommendations that will be refined after the conference.
- **Sub-Group 3:** Take up the twelve **weaknesses** shown in the table, study how these can be overcome based on the matrix within the guidelines. Sub-Group 3 should therefore prepare a list with recommendations that will be refined after the conference.
- **Sub-Group 4:** Take up the twelve **threats** shown on the table, study how they can be avoided in order to meet the criteria for a QPE based on the experience of the sub-groups' experts. Sub-Group 4 should therefore prepare between 2 and 5 recommendations to be refined after the conference.

IX. 5:45pm-6:15pm: Plenary

- One spokesperson per sub-group will present the recommendations of his or her group, which will be progressively written on screen/paper, and shared after the conference.
